

Dear Parents and Carers,

Please find our learning overview for the autumn term.

This term in cedar class our theme is 'How does it feel when everything erupts?' this will link all of our learning together. We will be starting the term by focusing on 'how we learn' and looking at our value of diversity. We will be reading the book we are all different. Our first week will be a different timetable to our usual one, it will be a welcome back week based around this value.

Your child should have received a letter containing key information about their new class. If you have not received this, please let me know and I will send another via seesaw.

If you have any questions throughout the year, please don't hesitate to message on seesaw.

Laura Pagden

Science

We will be looking at living things and their habitats, whilst also looking at animals including humans.

English

In English our main text is 'Bloom – The surprising seeds of Sorrel Fallowfield'. We will write for a range of purposes this term.

RE

In RE our two enquiry questions are...

How far would a Sikh go for his/her religion?

Is the Christmas story true?

Autumn 2023 How does it feel when everything erupts?

French

We will be looking at phonics to begin the term before learning about fruit and vegetables.

Art

We will study the artist Melaine Yazzie, we will look at printmaking and then create a final piece, this will be an 'emotional eruption picture'.

Maths

We will be covering place value, addition and subtraction and multiplication and division.

History

We will be learning about the romans, the roman empire and the impact this had on Britain.

DT

Our DT unit this term is based around food. We will be looking at recipes and creating examples of roman dishes.

Music

We will be learning a range of songs, whilst also learning to play the recorder.

PE

The units we will cover this term are basketball, fitness, gymnastics and dodgeball.

PSHE

We will be learning about the following topics:
Physical health and fitness,
Healthy eating,
Health and prevention,
People who care for me and
Caring Friendships.

Geography

This term we are going to be looking at volcanoes. This will include looking at the structure of volcanoes, studying examples of volcanic eruptions and their impacts, the causes of volcanoes and the ring of fire.

Computing

We will be looking at E-Safety, data handling and app design this term.
